

# The Colonnade

Volume VII.

Georgia State College for Women, Milledgeville, Ga., Monday, May 16, 1932

NUMBER 24

## G. S. C. W. Introduced to The Public

### Class in Journalism Presents Facts about the Georgia State College for Women

#### One Hundred Forty-four Georgia Counties Represented in Student Body

##### More Than Twelve Hundred Students Enrolled

The student body of the Georgia State College for Women is state-wide, coming from 144 of the 161 counties in Georgia, with a few from Florida, South Carolina, Michigan, and Cuba added for good measure—1221 girls make up the student body of the college.

The county, with the exception of Baldwin, in which the school is located, represented by the largest number, is Fulton with 59. The next three in order are Bibb with 40, Muscogee with 37, and Troup with 25. There are 33 out-of-state girls. Florida seems to be most popular, with South Carolina second. Other states represented are Alabama, Tennessee, North Carolina, Pennsylvania, and Michigan.

The college opened in 1890, and since that time, the growth has been steady, with probably a total of 20,000 students in attendance. The enrollment next year will likely be near the 1300 mark.

P. R.

#### SUMMER SCHOOL

The summer school at the Georgia State College for Women offers new courses, additional faculty members, and a large amount of freedom for recreation.

Opportunities are given students to work towards degrees, to renew certificates or to secure modern methods and academic courses.

In addition to the educational advantages, the recreational features are carefully planned by the Y. W. C. A. and members of the faculty. Pageants, lyceum numbers, plays, movies, and programs for special days are among the entertainments provided. Sports for all-tennis, basketball, swimming and bowling.

A friendly atmosphere prevails and helpful acquaintances and friendships are formed that prove of lasting benefit. Real college spirit is maintained and it is the aim of the members of the faculty and others in authority to share the problems of every student.

J. S.

#### FAMILIES

Two families in Georgia prove their preference of the Georgia State College for Women by having three of their members enrolled as students. Thirty-two families have two representatives each.

The county with the largest number of students in the college is Baldwin with ninety-four students. Fulton county ranks second with forty-nine registered, while Bibb has forty.

A. C.

The Colonnade staff is glad to turn over the publication of this issue to the Feature Writing Class in Journalism that they may gain the actual newspaper practice and also that the public may have a summary of our college life.

The Colonnade staff wishes them all success.

#### COURSES

Students attending the Georgia State College for Women are offered a large variety of courses—four hundred in number. From these courses may be selected those that tend towards a general, well-rounded education; and others that aid in the preparation for special fields, such as teaching, science, music, journalism, welfare, dietetics, art and library.

A. C.

#### Well-trained Faculty Composed of Seventy-eight Members Is Widely Selected

##### ADMINISTRATION

Jasper Luther Beeson—President.  
Edwin H. Scott—Dean of the Teachers College and Registrar.  
William T. Wynn—Dean of the College of Arts and Sciences.  
Linton S. Fowler—Bursar.  
O. A. Thaxton—Secretary of the Teachers Exchange.  
Mrs. E. C. Beaman—Head Matron.

##### American and Foreign Institutions Represented

The faculty of the Georgia State College for Women is composed of seventy-eight members, seventy-five per cent of whom have attended two or more colleges. Sixteen have studied in foreign institutions. The faculty list includes 14 Doctors, 45 with Masters' degrees and 19 with Bachelors' degrees.

Ninety-nine colleges and universities of the United States and Europe are represented. The five American colleges having the largest number of representatives among the faculty are Columbia, Georgia State College for Women, Peabody, University of Chicago, and Cornell. Among the other American universities represented are the University of Missouri, University of Georgia, and University of Wisconsin, Emory, Harvard, University of Tennessee, and Johns Hopkins.

P. R.

#### GEORGIA HISTORY MUSEUM

The Georgia History Museum, sponsored by the History Club, under the direction of Dr. Amanda Johnson, is one of the most valuable additions to the G. S. C. W. campus.

Each year a play is given to raise funds for the upkeep of the museum.

Varied and valuable donations have been made by interested people throughout the state, one of the most valuable being pictures of prominent Georgians.

At present a special drive is being made to enlarge the picture gallery. Anyone having and willing to donate a picture of John A. Treutlin, Lyman Hall, John Houston, Edward Telfair, George Mathews, Jared Irwin, John Clark, George Troup, George Gilmer, Howell Cobb, or any of the governors from 1833 to 1933 will confer a great favor on the college.

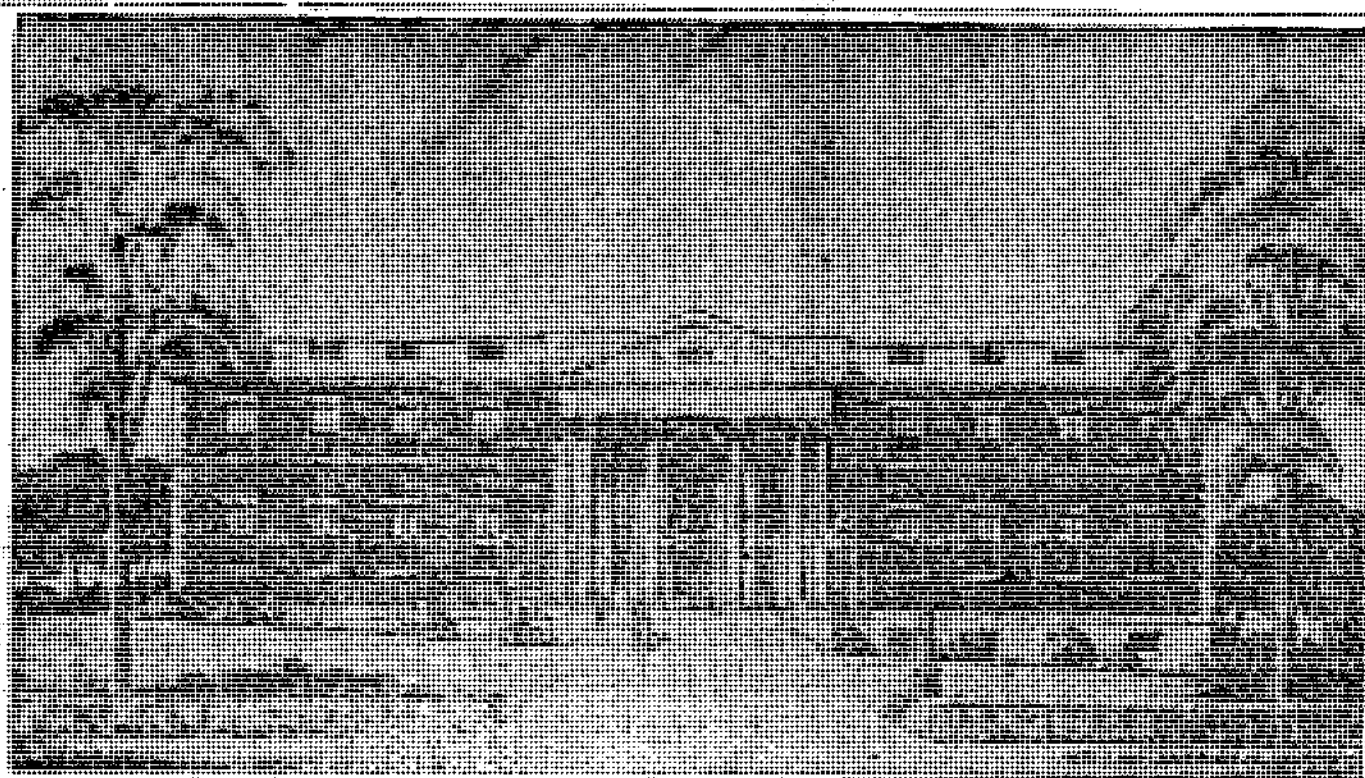

With the co-operation and assistance of interested Georgians the museum can have the most valuable collection of its kind in the state.

The museum is now located on second floor, Parks Hall, but upon completion of the Ina Dillard Russell library it will be given a permanent location there.

M. S. J.

books will be added for the Fall Term. No more drudgery in reading references for G. S. C. W. students after September. New rooms, new books, and a new school year promise many happy hours!

J. S.

Architect's Drawing of G. S. C. W. Library

#### FIRSTS

The Georgia State College for Women has been a pioneer in many forms of education which are now becoming more popular, and are promising to be of vast service to the state. Some of these "firsts" are enumerated below:

1. "First" college for women supported by State of Georgia.
2. "First" school to offer professional training for teachers.
3. "First" college in Georgia to teach Home Economics.
4. "First" institution in the South to place Home Economics on a par with other departments and to offer diplomas for specialization in the home sciences and arts.
5. Among "first" institutions of country to place great emphasis upon Health Education, and to maintain a fully organized department for the study of that subject.
6. "First" normal school in the state to rise to a standard college and to confer baccalaureate degrees.

L. L.

#### REQUIREMENTS FOR ADMISSION

For unconditional admission to the freshman class, a candidate must have graduated from an approved senior year high school with a minimum of fifteen units. Young ladies who are under fifteen years of age are not eligible for admission to the college.

V. H.

#### PRESIDENTS

Since the founding of the Georgia State College for Women, 1889, only three men have served as its executive head.

The first president was J. Harris Chappell, A. M., Ph. D., who served from 1890-1905.

Dr. Chappell was succeeded by Marvin McTyeire Parks, A. B., LL.D., who remained president of the institution until his death, December, 1926.

Since the death of Dr. Parks, Jasper Luther Beeson, A. B., A. M., Ph. D., LL.D., has guided the destinies of the college.

For forty-two years the college has ministered to the needs of the young women of Georgia; three great men have directed her affairs.

M. S. J.

#### WHAT THE COLLEGE EMBRACES

1. Four year course leading to A. B. Degree.
2. Four year course leading to B. S. Degree in General Science.
3. Four year course leading to B. S. Degree in Vocational Home Economics.
5. Four year course leading to B. S. Degree in Education.
6. Two year course leading to Normal Diplomas.
7. One year course leading to Certificates.

V. T.

#### THE NEW LIBRARY

New, cheerful, roomy, with an abundance of fresh air and light—that is the architect's picture of G. S. C. W.'s new library, which will be completed and ready for use by September. The sum of \$50,000, with which this building is being erected, has been accumulated as savings from the dormitories through economical management of the college for the past several years.

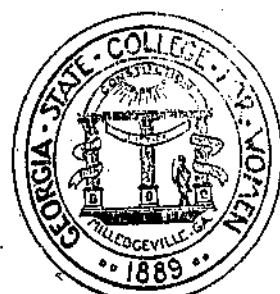

The name for this structure, Ina Dillard Russell, in honor of the wife of Chief Justice Richard B. Russell, was chosen by the Board of Regents. Constructed of red brick with cast stone trimmings, this building will be in keeping with the other buildings on the campus. Corinthian columns will complete the conformity in style, matching the architectural plan of the college.

This library will contain two stories and a basement. A fireproof stackroom, capable of holding 100,000 volumes, will be one of the main features. Three other rooms will be on the first floor—two reading rooms and the librarian's office. On the second floor a large lecture room will be placed in one end, and a science room, a Georgia museum room, and a general room will occupy the remaining space.

As is the custom at the beginning of every semester a new supply of

### PURPOSES OF G. S. C. W.

The Georgia State College for Women desires to promote a type of education suited to the needs of young women of the present day. In carrying out this desire the school has varied purposes. The purposes of the college are to prepare young women:

(1) To do intelligent work as teachers according to the best methods known to modern pedagogy.

(2) To earn their own livelihood by the practice of some one of those industrial arts suitable for young women to follow.

(3) To exert an uplifting and refining influence on society by means of a cultured intellect, which can only be attained by a systematic education in the branches of higher learning.

(4) To be skillful and expert in those domestic arts that lie at the foundation of all successful house-keeping and home-making.

(5) To be competent to pursue graduate studies and achieve the higher degrees.

V. H.

### MATRONS—HOUSEKEEPERS

It is doubtless true that "There is no place like home," but there are ten people on the G. S. C. W. campus who try to make a student's campus days just as pleasant as those at home. They are the eight matrons and the two housekeepers.

Practically every word, action, and thought of a G. S. C. W. matron is in the interest of her girls. Throughout the entire year she strives to take the place of a girl's mother.

The housekeepers spend their time in planning wholesome and attractive meals for the students. The meals are well-balanced and appetizing. The dining rooms are made beautiful by flowers and ferns.

Thus day by day the school mothers watch out for their school daughters.

M. S. J.

### MILLEDGEVILLE AND BALDWIN COUNTY

Milledgeville, once capital of Georgia, has many evidences of the past, with its southern gardens, wide streets, and stately old homes of colonial architecture. Its more modern attractions contribute much toward bringing Milledgeville "up-to-date."

From the past comes the grand old structure, used for over half a century as the capitol, now used as the academic building of the Georgia Military College.

Governor's Mansion on the G. S. C. W. campus, now president Beeson's home—

The historic old cemetery of the town, whose epitaphs praise the valor of the soldiers of the War Between the States—

Thalian Hall, the dormitory in which Sidney Lanier lived while attending Oglethorpe University—

McComb's Mount once ex-governor Mitchell's home, a perfect example of colonial art.

Among the modern attractions are:

G. S. C. W., the first college fostered by the State for the education of women—

Georgia Military College, prep school and Junior College for boys—

Boys' Training School for delinquent boys—

State Prison Farm where the breakers of Georgia laws are kept—

Georgia State Hospital for the mentally diseased—

Allon's Invalid Home, a private institution, to assist the sick in getting well.

H. C.

### Y. W. C.

The most active and important organization on the campus is the Y. W. C. A. The college claims the distinction of having the largest Y. W. C. A. in the state and the only college with a full time secretary, Miss Polly Moss.

The members of the "Y" unite in the desire to realize a rich and creative life through a growing knowledge of God. They do their part in making such a life possible for all people. Thus they seek to understand Jesus and follow him. Their motto is from the lowly Nazarine, "I am come that they might have life, and that they might have it more abundantly." Through Bible Study Morning Watch, and Vespers, bits of inspiration and a personal touch are brought to every student on the campus.

V. Y.

### SEVEN TWINS ATTEND G. S. C. W. THIS YEAR

The most popular song for the Georgia State College for Women should now be "Me and My Shadow," because this year there are seven sets of twins registered on the college roll. The seven girls and their doubles are in the four college classes and hail from different sections of the state.

The twins are Marjorie and Virginia Herndon, Elberton; Lillian and Lucile Pridgen, Cordele; Julia and Susie Butts, Milledgeville; Lucile and Louise Dance, Eatonton; Emily and Eleanor Johnson, Wadley; Josephine and Virginia Peacock, Macon; Grace and Georgia West, Eastman.

V. T.

### WHERE TO MEET

G. S. C. W. has a little world of her very own. Only a G. S. C. student could possibly find the places referred to in chapel announcements.

For what outsider could guess that the "Round table" was a table on the first floor of Parks Hall, where so many of the G. S. C. gossipers spend their time. There's always an interesting discussion going on at that table. Who would know that "under the lights" means under the electric G. S. C. W. sign; that "under the dogwood tree" means a very small tree on the front campus under which not more than two G. S. C. students could possibly stand at the same time; that the "little white house on the tennis courts" is nothing more than the tool shed. (This announcement is especially popular during field day practices.)

This doesn't begin to enumerate them all, but after all these G. S. C. students can't give outsiders too much inside dope.

M. S. J.

### SUMMER SCHOOL OPENS

JUNE 7

### FALL TERM OPENS

SEPT. 14

### HOME EVENTS OF THE YEAR

1. Freshman reception—given organization on the campus is the first week after school opened, and sponsored by the Y. W. C. A.

2. Annual Hike—The entire student body hiked to the Oconee River, where fun, frolic, and eats were enjoyed together.

3. Thanksgiving—Observed at the college by a holiday, "large" dinner and general homecoming for the alumnae.

4. Halloween—Dumb suppers with costumes, decorations, and games were held in the evening.

5. Christmas—Just preceding the holidays many parties were given by various clubs and groups on the campus. A lighted tree on front campus and the singing of carols were sponsored by "Y".

6. Examination Week—At the end of the first semester, in January, during examination week, refreshing punch was served by the "Y" to tired and weary students.

7. Spring Holidays—Days eagerly looked forward to, which came the latter part of March.

8. Field Day—May 17, when class spirit ran high, as the various classes competed in basket ball, volleyball, base ball, relays, and dances.

9. Commencement—with all that the name implies, the last week in May.

V. T.

### CLUBS

Among the clubs that meet regularly, at least once a month, are:

History Club—President—Ruth Wilson.

Mathematics Club—President—Sara Willis.

Chemistry Club—President—Julia Bolton.

Literary Guild—President—Eugenia Lawrence.

Classical Guild—President—Anne Pfeiffer.

Commerce Club—President—Josephine Pritchett.

Health Club—President—Mary Rogers.

Geography Club—President—Alice Brinson.

Education Club—President—Marion Keith.

Biology Club—President—Martha Strange.

English Sophomore Club—President—Adrienne Willis.

Sock and Buskin—President—Sara Stenbridge.

Spanish Club—President—Flora Nelson.

Home Economics Club—President—Frances Williams.

Glee Club—President—Elizabeth Tolar.

Entre Nous—President—Mary Bell Gibson.

Le Cercle Francais—President—Beth Taylor.

L. L.

### FIELD DAY—PLAY DAY

Team rah! Team rah! Team rah, rah, rah, rah!

Weeks are spent in preparation for Field Day at G. S. C. W. Pep meetings and daily practices work the girls up to a "white heat."

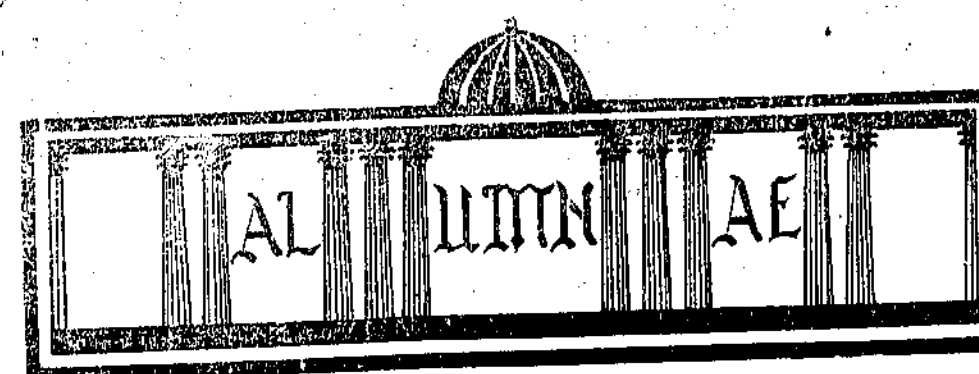

Each class covers an umbrella in its colors and places it at the top of a huge pole. At the end of the day the winning class takes its umbrella to the front campus.

The program is introduced with a prologue portraying some ancient May Day festival. The competitive events follow in rapid succession.

Girls hover about the score board. Which class will be the honored one? Play Day is ended; some are disappointed; all are happy!

H. C.

## G. S. C. W. For The Alumnae

## THE ALUMNAE For G. S. C. W.

### THE ALUMNAE ASSOCIATION

More than 20,000 students have worn the brown and white uniform of the Georgia State College for Women. Of these, 5,705 have received Normal Diplomas, and 798, Degrees.

The Alumnae Association of the college endeavors to keep in touch with these former students. Its aim is to maintain a spirit of loyalty to the Alma Mater; its purpose is to render effective contacts between Alumnae and the college, to strengthen Alumnae friendships, and to perpetuate memories of college associations. The slogan of the organization is "A G. S. C. W. Club in every County of Georgia." Each year, during commencement, the annual meeting of the association is held.

The Alumnae Association is responsible for many campus activities. It encourages the organization of county and city clubs at the college, entertains the granddaughters of the college, the class and Y. W. C. A. officers, and the Seniors, and informs them about the workings of the association and their own future responsibilities as Alumnae of the college.

At Thanksgiving, the Alumnae Association plans a home coming and has change of the chapel program the following Friday.

In February 1930 an Alumnae Loan Fund was begun by Miss Katherine Scott, then President of the organization. Three students have been recipients of this fund.

The G. S. C. W. Alumnae Association is a member of the American Alumnae Council.

Since 1912 it has been the custom for each Senior class to leave the college some token of its appreciation. The classes and their donations are as follows:

1912—Dr. Parks Class ring.  
1918—Mahogany table, used in old chapel; two trees, Palmettos, planted in front of Chappell Hall.  
1914—Sun Dial.  
1915—Two White Way Lamps.  
1916—Two White Way Lamps.  
1917—Fountain, in front of Atkinson.  
1918—Liberty Bonds.  
1919—Money for Recreation Path.  
1920—Log Hut.  
1921—Big Walk.  
1922—Entrance Gate.  
1923—General Paving.  
1924—Building Fund.  
1925—Parks Memorial.  
1926—Building Fund. The Freshmen that year gave the large Bible for Chapel.  
1927—Building Fund.  
1928—Money; use not specified.  
1929—White Way Lamps.  
1930—Wall Clock in Library.  
1931—Bird Bath; not yet used.

D. M.

### GOVERNMENT SQUARE PARK

Probably no other place around Milledgeville gives the pleasure and enjoyment to the students of the Georgia State College for Women as does Government Square Park. Throughout the entire year it is a mecca for all hiking groups, club meetings, and weiner roasts. It plays such an important part in campus life that it is difficult to conceive of the college without it; however it has been college property for only thirteen years.

Formerly this park was a twenty acre square of waste land donated by the Georgia legislature to the Aldermen of Milledgeville for the benefit of the Georgia Military College. After several years it was purchased by the Georgia State College for Women at a cost of \$7,500. The initial payment was made by the class of 1919. Since that time it has been gradually developed into a beautiful park. Groups of individuals have given plants and bulbs, the Art Department planned the gate, and many other groups have had a part in its improvement.

In 1929 the log cabin was built for the pleasure and convenience of the students and faculty. The building committee consisted of Dr. J. L. Beeson, Mr. L. S. Fowler, Mrs. H. D. Allen, Jr., and Mrs. E. W. Allen; Dr. T. H. Manhattan, of the Agricultural College at Athens, worked out the landscape plans.

The park is now a profusion of cut and wild flowers, vines and evergreens, and with its natural amphitheater and beaten paths, it is a beauty spot of Milledgeville and a joy to the college girls.

M. B.

### TEACHERS IN ACCREDITED HIGH SCHOOLS

According to a recent published statement by Dr. E. D. Pusey, professor in Peabody School of Education of the University of Georgia, there are two hundred and forty-two graduates of the Georgia State College for Women now teaching in the accredited high schools of the state. Only one other school, the University of Georgia, showed a larger number. This is exceedingly gratifying owing to the fact that one of the chief aims of the institution is the providing of well-trained teachers for the schools of Georgia. In addition, statistics given out by the State Department of Education a few years ago indicate that the Georgia State College for Women supplies twice as many teachers for elementary school as any other college in the state.

V. H.

### CHURCHES ATTENDED BY G. S. C. W. STUDENTS

Baptist Church—Rev. L. E. Roberts.  
Methodist Church—Rev. Frank Quillian.  
Presbyterian Church—Rev. A. G. Harris.  
Episcopal Church—Rev. F. H. Harding.  
Catholic Church—Father McNamara.

V. T.

### GRANDDAUGHTERS OF G. S. C.

G. S. C. W. spirit lives! From one generation of graduates to another this spirit which is so intangible and unexplainable, yet so uplifting and real, is being handed down.

There are 50 girls now wearing the brown and white whose mothers before them wore the same uniform at this institution.

The highest tribute that any alumna can pay to her Alma Mater is that of sending her daughter to the same school to receive an education, so this college is justly proud of the 50 students enrolled this year whose mothers first learned to love the college.

V. T.

### DEGREE GROWTH

For thirty years after the founding of the Georgia State College for Women there were offered substantial courses in accordance with the charter of the institution, and gradual improvements made in the curriculum, equipment and faculty; however the first degrees, four in number, were awarded in 1921. Since then the number of degrees has shown a gradual growth. In 1922 there were eight degrees conferred; 1923, twenty; 1925, forty-eight; 1928, one hundred and forty; and in 1930, one hundred and seventy-one.

U. Y.

### THE G. S. C. W. UNIFORM

The uniform of the Georgia State College for Women has had an interesting and eventful career. From the time of its birth in 1891 to the present day the uniform has been a vital part of every G. S. C. W. girl's life and remains a pleasant memory in the hearts of every G. S. C. W. alumna.

Since 1891 the uniform has been changed several times. An effort has been made, however, to steer clear of extreme styles, in order that the uniform changes may be reduced to a minimum.

At the present time the uniform used for everyday wear consists of a brown skirt, white shirtwaist, black tie, and a black sweater. The Sunday uniform outfit is composed of a brown silk dress, a brown felt hat, and a long brown coat for winter use.

The uniform of G. S. C. W. serves a double purpose; it makes for economy and also for democracy among the students.

V. H.

### COMMENCEMENT EDITION OF THE COLONNADE NEXT WEEK

### MARVIN PARKS MEMORIAL

The College Hospital, Marvin Parks Memorial, was erected in 1927 at the cost of \$40,000. The alumnae led in the movement to raise funds for its construction. They were assisted by the faculty, students, and friends of the College.

Dr. W. M. Scott, the physician in charge, gives daily attention to the needs of the students. Dr. O. C. Wood is his assistant. Miss Elizabeth Thomas, a charter member of the Georgia Graduate Nurses Association, is the superintendent. She is assisted by four graduate nurses.

Parks Memorial has thirty-six beds. This number has proved adequate. In addition to the regular equipment there are facilities for treatments of alpine sunlamp, ultraviolet ray, and infra-red light.

A clinic is conducted every morning from eight to nine o'clock. THERE ARE NO CHARGES MADE TO THE STUDENTS FOR TREATMENT AND HOSPITALIZATION ON THE CAMPUS OF THE GEORGIA STATE COLLEGE FOR WOMEN.

A. B.

### THE TEACHERS' EXCHANGE

No, it is not a teachers' age. Yet, in its true sense it is, and embraces the two-fold purpose of bringing together, through correspondence, schools needing teachers and teachers wanting positions.

Mr. O. A. Thaxton, in charge of the teachers' exchange at the Georgia State College for Women, spends a large amount of his time in efforts to obtain teaching positions for the college graduates. Letters enclosing blanks for information about vacancies are written to school superintendents throughout Georgia. Should there be a vacancy Mr. Thaxton recommends the student best qualified to fill the place.

Of approximately four hundred students on his list, three hundred and sixty are usually placed each year.

This service is entirely free to the students.

D. M.

### OLDEST FACULTY MEMBERS IN POINT OF SERVICE

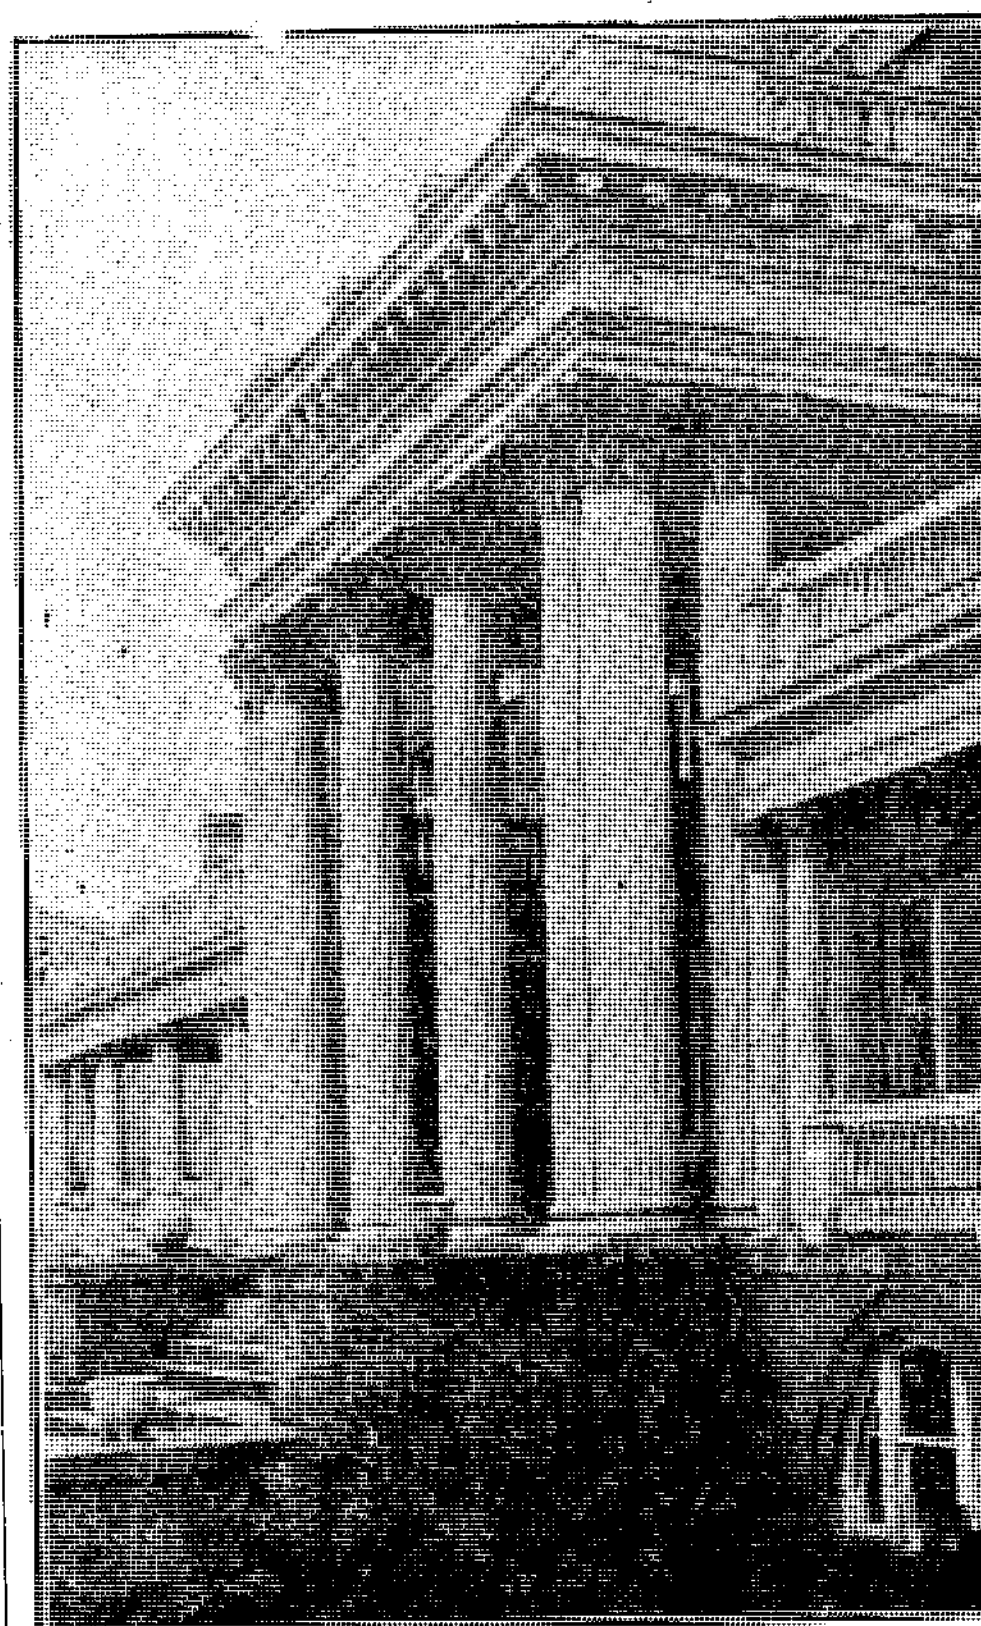

President J. L. Beeson and Miss Alice Napier have had a part in the college development for over thirty-five years.

Miss Napier came to G. S. C. W. in 1893, two years after its founding. Since that time she has taught mathematics to probably 20,000 different students.

Dr. J. L. Beeson, president of the college, has served in this office since January 1, 1927. He came to G. S. C. W. in 1897 as professor of chemistry and physics. He served in the science department until he became president. Dr. Beeson has exerted a powerful influence in shaping the policies of the institution during the last thirty-five years.

D. M.

SAMPLE OF THE COLUMNS

## DORMITORY ACCOMMODATIONS

The dormitory accommodations at G. S. C. W. compare very favorably with those of any college in the state. The rooms are well furnished and equipped with the best ventilation, heating, and lighting fixtures. Each room contains a built-in closet. Over six hundred girls have rooms with connecting baths.

Each of the dormitories has a large veranda. Last year, the front of Atkinson Hall was remodeled so that the girls might have this advantage, which many dormitories of other colleges do not afford.

The students may keep informed concerning local, national, and international affairs by reading the daily newspapers without expense, in each of the dormitories—the Macon Telegraph, Atlanta Journal, Union-Recorder, Milledgeville Times, and other papers. Each issue of the Literary Digest and Current History is received, and every dormitory has a Compton's Pictured Encyclopedia.

D. M.

## THE LUNCHROOM

The college lunchroom has seldom failed to be the proverbial "haven for the hungry and weary." It is the "substance" of one of the most interesting and practical courses at G. S. C. W.

The lunchroom, located in Chapel Hall, is open every week day from twelve-thirty to one-thirty. Its equipment consists of an electric toaster, General Electric refrigerator, electric percolator, and efficient stoves for cooking; yet the food is the main feature!

Perhaps the most interesting sight of the lunchroom is the fact that such astonishingly low prices are charged for the quantity and quality of the food served.

L. L.

## THE TALKIES

G. N. and I. C., now G. S. C. W., was the first college in Georgia to provide movies for its students. At first only silent pictures were shown. These were continued until the summer of 1930, when a "talkie" was installed.

Mr. O. A. Thaxton states that he always tries to find those pictures labeled "Good" by the critics—"We seek variety also in selection," says Mr. Thaxton—"and to furnish the best at the least possible cost."

H. C.

## PUBLICATIONS

Three different publications are issued from the Georgia State College for Women by editors selected from the student body.

The oldest campus edition is the college annual, now called the Spectrum. It is a mirror of college life and activities.

The Colonnade, the weekly chronicle of college events, had its origin in 1925. This paper was formerly the Y. W. C. A. bulletin called the Triangle.

The Corinthian, a quarterly had beginning in February, 1927. It is a literary magazine sponsored by the Literary Guild for the purpose of encouraging creative writing.

Besides these publications the college issues monthly bulletins including a general catalogue.

A. C.

## BUILDINGS

On the campus are seventeen magnificent buildings most of which are constructed on the same architectural style with Corinthian columns.

Six of these buildings are used for classrooms; nine serve as dormitories; the handsome commodious auditorium and the Mansion (formerly the home of Georgia's governors) complete the beautifully arranged group. The "Mansion" is now used as the residence of President J. L. Beeson.

V. Y.

## PIANOS AT G. S. C. W.

Good pianos play a prominent part in developing the musical ability of people in all walks of life. College students are not exceptions to the rule.

Fifty pianos, the majority of which are Stieffs, are distributed in the dormitories, the gymnasiums, the tea room, the practice school, the auditorium, and the studios. And another good thing—No Rent Is Charged for The Use Of Them! The student may play Bach and Chopin or popular music and class songs to her heart's content without thinking, "I'm paying for the use of the piano."

D. M.

## THE TEA ROOM

"Come, eat, and have a good time," said a G. S. C. W. student. Where? The tea room—and why? The reasons are numerous.

The college tea room, a very attractive division of Bell Hall, is the social center of the campus. The girls entertain their friends and gather there for "chats". If a cool drink is necessary on a hot day, then to the tea room for it. Nearly every article of food on the menu is five cents. Occasionally special plates are prepared for ten and fifteen cents. Sometimes the collegiate quartette furnishes music. If they don't there is always a piano, anyway.

The tea room is opened Tuesday, Thursday, Friday, and Saturday afternoons, from four to six o'clock.

D. M.

## THE PRISM

The names of the students on the campus of the Georgia State College for Women form a prism. Many colors are playing their parts in the activities and classroom as shown by the registration book.

There is only one Ray, but three different Hughes. With all the colors one Dye is necessary to compose the multi-colored student body. Those being neutral are the three Whites and two Blacks, while Brown out numbers all others with six representatives. Two girls have surnames of Green, one Chestnut but only one Blue.

Such a rainbow casts its reflection over the South and as far away as Cuba, Pennsylvania and Michigan.

A. C.

## Commencement Program May 27 to May 30

## VISUAL EDUCATION

There is an old Chinese saying that one picture is worth a thousand words in creating thought. Educators are realizing this today in the increasing use of visual aid material.

The reflectoscope is one of the most efficient and versatile devices used by the college. Three of the most modern type have been placed in the English, Art, and Education Departments, and can be used for slides, still films, and projectors of all opaque material.

In addition to the reflectoscopes the college uses various types of projectors for lantern slides. More than a thousand slides and seven or eight times as many pictures cause visual education to take one of the first places on the campus.

## THE ICE PLANT

G. S. C. W. has its own facilities for keeping cool. The ice plant, installed four years ago, has proved successful in supplying the dormitories, kitchens, and the four cold-storage rooms. The plant is operated by an electric motor and has a capacity of eight tons.

J. S.

## THE NATURAL GAS

Natural gas is used for cooking, heating the buildings, and for the hot water system.

J. S.

## WATER SUPPLY

G. S. C. W. has an ample supply of pure water provided by the Milledgeville Water Works. This water is tested frequently by state specialists and pronounced free from all harmful matter.

## FOOD WELL PREPARED FOR G. S. C. W. STUDENTS

With three well-equipped, sanitary kitchens operated each day, and with two trained dietitians planning well balanced meals, students at the Georgia State College for Women always enjoy wholesome and tasty food.

In the kitchen in Atkinson Hall, where meals are prepared daily for 900 students, 23 negroes are employed to do the work. All cooking is done by steam which is generated by natural gas. This steam equipment includes one large Rink oven, seven kettles each holding from forty to sixty gallons, three roasters, two large steamers, two deep fat fryers, and a long table for serving food. When cooked by this method it is impossible for food to burn or scorch.

The other kitchens are located in Mansion Hall, and serve two dormitories. These kitchens are smaller than the one in Atkinson, but are well equipped and thoroughly modern.

## EXPENSES

The estimated minimum expenses for a year at the Georgia State College for Women are:

- (1) Room reservation fee for a room in a dormitory \$5.00.
- (2) Board, nine months at \$17 per month (includes fuel, board, and lights) \$153.00.
- (3) College fund for the first semester (includes matriculation fee, \$10.00; library fee, \$2.50; equipment and laboratory fee, \$5.00)—\$17.50.
- (4) College fund, the second semester the same as the first—\$17.50.
- (5) Laundry, nine months—\$18.

Total necessary expenses—\$211.

## THE LABORATORIES

Eight departments at G. S. C. W. have standard laboratory equipment, wherein the technics of the course may be tested and the abstract made concrete. There are laboratories in biology, chemistry, physics, geography, cooking, sewing, psychology, health, and agriculture.

In addition to the standard "ag" labs, there are miniature gardens for the devotees of "ag" where students plant, cultivate, and gather their own vegetables and flowers.

## THE PRACTICE SCHOOL

"Practice makes perfect!"

The Practice School is the main laboratory for those who expect to make teaching a profession.

All grades from the pre-school through four years of high school are included in the practice schedule.

The faculty is composed of well-trained, experienced critic teachers with degrees, who supervise the teaching. In addition to these many of the members of the regular college faculty assist with advice and conference.

It has been estimated by those who have made a careful study of the situation that one semester of practice teaching under expert supervision, such as that offered at G. S. C. W., is worth more than a full year of ordinary teaching.

About 500 are enrolled in the practice school this year. Sixty-three expect to graduate from the high school department.

## THE G. S. C. W. ORCHESTRA

The college orchestra forms a vital part of the musical life of the campus. The orchestra is now composed of an ensemble of fifteen violins, under the direction of Miss Beatrice Horsbrough.

Most of the incidental music for the George Washington Bi-Centennial celebration, sponsored by the G. S. C. W. History Club, was rendered by these young musicians. A number of special programs are given by the orchestra during the year.

## LOAN FUNDS

"Money to Lend" is not a slogan of the College but there are eleven loan funds that have been provided to help some of the less fortunate students in their attempts to secure an education at the Georgia State College for Women.

The Faculty Loan Fund is probably the most outstanding of these. In 1900 the faculty raised among themselves \$100 which was used as a nucleus. With this initial contribution one student was helped. Through faculty contributions and interest, additions the fund has increased each year. Today it amounts to more than \$7,000.

Among the other sources of assistance for worthy students are the Philo Sherman Bennett Fund, Chapel Loan Fund, Anna Brown Small Loan, Carrie Hoyt Brown Loan, Frances Clementine Tucker Fund, Joseph M. Terrell Loan, Alice Walker Shinolser Memorial Fund, Thomas E. Mitchell Loan, and Georgia Home Economics Loan Fund.

The turnover from all the funds combined amounts to approximately ten thousand dollars each year.

## THE PRACTICE HOUSE

One of the most interesting features of the campus is the "Practice Home". There, the girl who is planning to become "Mrs." may discover how to keep her husband's temper unruffled by learning the secrets of how to make biscuits rise and toast brown, and the girl who prefers solitary bliss may learn how to plan meals that will cook themselves during her office hours.

The Practice Home is a form of laboratory work in the course, Household Science 29, or Home Management. The course was offered for the first time in the fall term of this year. Home Management is open only to seniors who are majoring in Home Economics. It furnishes a culmination to their preceding work.

The house was completely furnished by the college, including beautiful new dining-room and bed-room suites. The home is equipped with various electrical appliances. A radio was given the girls by the Tea Room and several smaller gifts were presented by the Home Economics Club. Curtains were made and hung by the girls themselves. Accommodations are made for six girls and a supervisor. At the end of the six weeks' period, another group of six takes possession, allowing three groups the use of the home each semester.

The tasks are divided into six groups; cook, assistant-cook, maid, assistant-maid, host, and hostess. Each girl takes one duty each week. At the end of the week, the duties are changed, thus giving every girl a chance to learn all phases of the management of a home. Food is bought, meals are planned and cooked, and expenses are recorded, all of which bids fair to make an "old-fashioned up-to-date" wife. Lucky will be the man that gets one!

Incidentally, the course is required of all those who are working towards a degree in Vocational Home Economics.

## THE "GYMS"

One, two, three! Let's see. There are three gyms in the basements of Terrell and Bell annexes to say nothing of the high school gym in the Practice School building. The three college gyms are equipped with all materials necessary for Soccer, Base Ball, Basket Ball, Volley Ball, Deck Tennis, Newcomb. Victrolas supply music for folk dancing and rhythmic games.

It is whispered that there will soon be a handsome new building, including recreation halls gyms and a swimming pool.

H. C.

## RECREATION

Noises and expressions such as "ping, pong—ready? serve," just before rising bell seldom fail to awake the girls whose rooms overlook the back campus.

The tennis courts, located just behind Bell and Terrell Halls are popular throughout the year. These courts are rolled, finely packed, and carefully lined. Six courts now (probably two more soon) are filled from early morning to nightfall.

The popularity of tennis at G. S. C. W. has led to the customary rule of "signing up" for courts by the student on the morning before she intends to play. The tennis tournaments held every spring also present an interesting phase of "Field Day."

In rainy weather, the bowling alley in the basement of Ennis Hall, and the equipment for "deck" tennis in the gymnasium have proved a boon to those most athletically inclined.
